**Highway Infrastructure Projects  
Department of Transportation (DOT)  
Guidelines and Requirements for Appropriations Submissions**

**Member Request deadline is March 20, 2026 at 6:00 P.M.**

**Members must post CPF requests on their website on April 17, 2026.**

Highway Infrastructure Projects are capital projects eligible under title 23 of the United States Code. Eligible projects are described under section 133 of title 23, United States Code, as amended by title III of division A of the Infrastructure Investment and Jobs Act. Tribal and territorial capital projects authorized under chapters 1 and 2 of title 23, United States Code, are also eligible.

All projects must be:

1. Capital projects or project-specific design for a capital project.
2. Supported by the state or Tribal government that would administer the project. Inclusion in a Statewide Transportation Improvement Plan (STIP) or Transportation Improvement Plan (TIP) would satisfy this requirement.
3. Requested by state, local, or Tribal entities.

The subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation. These include general operating expenses and planning activities required under sections 134 and 135 of title 23, United States Code.

Applicants should be aware that Highway Infrastructure Projects have a non-federal cost share calculated on a sliding scale. The [cost-share requirements](#) are defined in statute and vary based on activity, location, and other factors.

Additionally, projects must comply with federal requirements such as Buy America and the National Environmental Policy Act. The Committee strongly encourages Member offices and potential funding recipients to reach out to their state departments of transportation to determine the eligibility and viability of projects.

For each Highway Infrastructure Projects request, Members will need to provide specific information through the electronic submission process. The database will include the following questions to assist the subcommittee in vetting and selecting projects.

**Demonstration of Community Support:**

Demonstration of community support for a project is crucial for determining whether it should receive funding. Projects must have substantial evidence of community support to be considered for funding. Community support documentation can include letters from elected officials and community groups, local transportation or community development plans, publications (including news articles), and any other documents demonstrating public support for the project.
